## DETAILED ACTION

### *Priority*

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 10/178,306, filed on 6-25-2002.

### *Information Disclosure Statement*

2. The information disclosure statement (IDS) has been considered by the examiner.

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

4. The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000.

Art Unit: 1756

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claims 15-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Hunter, US Patent Number 6,721,045.

The method of the instant application is described, taught and suggested by the prior art reference throughout its entirety. Specifically refer to Figures 27 and 28, as well as the detailed explanation of these figures in the specification at column 35, line 17 through column 37, line 55. Based on these teachings the instant invention is anticipated.

6. Claims 15-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Batson et al., US Publication Number 2002/0196336.

The method of the instant application is described, taught and suggested by the prior art reference throughout its entirety. Specifically refer to claims 10-30 of the document. Also refer to paragraph [0008] of the specification. There is a reference to Application Serial Number 09/680,226. A copy of this application's claims has been included for referral. Based on these teachings the instant invention is anticipated.
